**Policy Basis**

Advertising signs are an important component of the built environment. Appropriately designed and located signs can complement or enhance the development on which they are displayed, as well as the streetscape character. Clear legible signage and reduced visual clutter will improve the overall effectiveness of signs in the municipality and support a high quality image.

**Policy Objectives**

- Signs should enhance the physical character of the City of Banyule.
- Signs should be adequate and effective, given the legitimate need for business promotion.
- Visual clutter should be minimised and rationalise existing and proposed signs.
- The appearance, size, illumination and other aspects of signs should complement the developments on which they are displayed and the character of the surrounding locality.
- Signs should identify the business, not the individual products which are sold.
- Signs should not adversely affect the advertising capability of adjacent premises.
- Signs should not interrupt or detract from views of major natural and built environment features.
- Signs should not significantly impact on the character or amenity of residential areas.
- Signs should not be located where they are hazardous to motorists and pedestrians.
- Operators of all sites should improve the effectiveness of advertising on their site.
