3.0

04/02/2010
C110

Subdivision

A permit is required to subdivide land.

An application to subdivide land must be accompanied by a report which explains how the proposed subdivision:

- Promotes the purpose of this zone.

- Supports the decision guidelines for this zone.

4.0 Buildings and works

04/02/2010
C110

A permit is required to construct a building or construct or carry out works. This does not apply to:

- An alteration or extension to an existing building provided the floor area of the alteration or extension is not more than 50 square metres.
- An alteration or extension to an existing building associated with the RACV Inverloch Resort that does not increase the gross floor area.
- A rainwater tank.

5.0 Exemption from notice and review

04/02/2010
C110

An application to use or subdivide land, construct a building or construct or carry out works, is exempt from the notice requirements of Section 52(1)(a), (b) and (d), the decision requirements of Section 64(1), (2) and (3) and the review rights of Section 82(1) of the Act.

6.0 Advertising signs

04/02/2010
C110

Advertising sign requirements are at Clause 52.05. This zone is in Category 1.

7.0 Decision Guidelines

04/02/2010
C110

Before deciding on an application to use or subdivide land, construct a building or construct or carry out works, in addition to the decision guidelines in Clause 65, the responsible authority must consider, as appropriate:

General issues

- The State Planning Policy Framework and the Local Planning Policy Framework, including the Municipal Strategic Statement and local planning policies.
- Any Regional Catchment Strategy and associated plan applying to the land.
- The capability of the land to accommodate the proposed use or development in relation to existing infrastructure and services.

Environmental issues

- The impact of the proposal on the natural physical features and resources of the area, in particular on soil and water quality.
- The impact of the use or development on the flora, fauna and landscape features of the locality.
- The location of on-site effluent disposal areas to minimise the impact of nutrient loads on waterways and native vegetation.

Design and siting issues

- The impact of the siting, design, height, bulk, colours and materials to be used, on the natural environment, major roads, vistas and water features and the measures to be undertaken to minimise any adverse impacts.
- The impact on the character and appearance of the area or features of architectural, historic or scientific significance or of natural scenic beauty or importance.
- The location and design of existing and proposed infrastructure including roads, gas, water, drainage, telecommunications and sewerage facilities.
- Whether the use or development will require traffic management measures.

Notes: Refer to the State Planning Policy Framework and the Local Planning Policy Framework, including the Municipal Strategic Statement, for strategies and policies which may affect the use and development of land.

Check whether an overlay also applies to the land.

Other requirements may also apply. These can be found at Particular Provisions.
