SCHEDULE TO THE EROSION MANAGEMENT OVERLAY

Shown on the planning scheme map as EMO1

MALMSBURY TOWNSHIP

1.0
19/01/2006
VC37

Application requirement

All applications for development shall provide a Soil and Water Report, which shall address how soil and water impacts are going to be managed, so that the water quality of the Malmsbury Reservoir is not affected.

This report shall demonstrate:

- The capacity of all drainage infrastructure to service the development.
- The methods for the treatment and retardation of all stormwater.
- The methods for sediment control.
