C52**MONITORING & REVIEW**

The MSS is an evolving decision making framework and process to develop and integrate economic, social and environmental objectives into sustainable land use and development strategies for Manningham.

Council will review the MSS and Planning Scheme every three years in accordance with the *Planning and Environment Act 1987*. The review process will be used to assess the effectiveness of strategic policy directions within the Local Planning Policy Framework (LPPF) and will involve the preparation of a status report with recommendations.

The review process and monitoring program will be linked to Council's Corporate Planning Processes. Progress towards achieving the Council Plan's vision and objectives is measured via a suite of indicators and targets monitored and reported annually. The effectiveness of the LPPF (MSS and Local Planning Policies) will be measured through the use of indicators and targets contained within the Council Plan, given that this document shares a common vision and objectives with the LPPF.

In summary, the effectiveness of the LPPF will be monitored in a number of ways:

**Strategic policy achievement**

- tracking of indicators and targets using the Council Plan
- use of indicators and targets using other key Council Strategies e.g. Manningham's Water15 – Sustainable Water Management Plan (2005)
- annual Municipal Opinion Survey.

**Operational effectiveness**

A general performance monitoring program to evaluate the operational effectiveness of the administration of the planning scheme will include analysis of:

- percentage of applications requiring additional information
- time taken for decisions (both delegated and non-delegated)
- the number of applications received per year including analysis of applications decided under delegation, by Council and by the Victorian Civil and Administrative Tribunal
- proportion of applications appealed to the Victorian Civil and Administrative Tribunal
- proportion of Council decisions supported by the Victorian Civil and Administrative Tribunal
- number of amendments undertaken and proportion approved
- review of strategies and policies by the Statutory Planning Unit and Economic and Environmental Planning Unit and other relevant service units.
