Decision guidelines

Before deciding on an application, in addition to the decision guidelines in Clause 65, the responsible authority must consider, as appropriate:

- The siting and design quality of all buildings and works and their suitability for the use proposed in the context of the adjacent area.
- The provision of site landscaping in the context of adjacent areas.
- The effect on the visual amenity, landscape and streetscape of the area.
- Impact on the importance, character and appearance of any building, area or place of scientific, aesthetic, architectural, or historical importance.
- Where new buildings incorporate dwellings, the design should respect and anticipate the development potential of adjacent sites, to ensure that the future development of the adjacent sites does not cause a significant loss of amenity to the subject site.
- For residential development, ensure appropriate noise attenuation measures are adopted to limit internal and external noise to appropriate levels.
- The design and treatment of the public realm including the solar access to existing open spaces.
- The wind effects of the proposed development at ground level.
