

LOCAL PLANNING POLICIES

Local Planning Policies are detailed directions that will guide day to day decision making about geographic or sectoral issues, so that cumulatively those decisions will support the achievement of the objectives, or at least will not undermine their achievement.

The Moyne Planning Policies are arranged in four sections:

- 22.01 - Settlement & Housing
- 22.02 - Environment
- 22.03 - Economic Development
- 22.04 - Infrastructure
