Principal Public Transport Network

Strategies

Facilitate high-quality public transport access to job-rich areas.

Maximise the use of existing infrastructure and increase the diversity and density of development along the Principal Public Transport Network, particularly at interchanges, activity centres and where principal public transport routes intersect.

Identify and plan for new Principal Public Transport Network routes.

Support the Principal Public Transport Network with a comprehensive network of local public transport.

Plan for local bus services to provide for connections to the Principal Public Transport Network.

Improve the operation of the Principal Public Transport Network by providing for:

- A metro-style rail system.
- Extended tram lines and the establishment of a light rail system.
- Road space management measures including transit lanes, clearways, stops and interchanges.
