1. Where the expression "lot/dwelling" is used, the intent is that the stated contributions are to be made on a per dwelling basis. However, where contributions are to be made on subdivisions, the number of lots may be used as a proxy for number of dwellings; except that where multi-dwelling or multi-use sites are included, their contributions will be based on planned dwelling numbers.

2. Totals do not include open space contributions, where relevant, as they are expressed as percentages.

**The Community Infrastructure Levy (CIL) payable under this Development Contributions Plan (DCP)**

Section 46L of the *Planning and Environment Act 1987* sets the maximum CIL amount that can be collected under an approved DCP

If the maximum amount of the CIL which may be collected under an approved DCP is varied under section 46L of the *Planning and Environment Act 1987*, the collecting agency may adjust the amount of the CIL payable under this DCP in accordance with section 46L of the *Planning and Environment Act 1987*.

If the collecting agency adjusts the amount of the CIL payment under this DCP, the collecting agency will publish the adjusted amount of the CIL payable under this DCP on its website.

**Development in excess of 15 dwellings per hectare**

For residential developments where the density is greater than 15 dwellings per net developable hectare as defined in the Truganina South Precinct Development Contributions Plan, and where communal open space and indoor recreation areas are provided in accordance with Truganina South Precinct Development Contributions Plan, the “community” and “other development” infrastructure will be limited to \$13,500.00 and \$100,406.19 respectively, per net developable hectare (subject to indexation for other development infrastructure).

**Indexation and revaluations**

All Development Infrastructure Levies stated in dollar values in this Schedule are to be indexed quarterly, in line with relevant indices stated in the Development Contributions Plan. All land values are to be or subject to periodic re-valued as provided for in the Development Contributions Plan.

**Provision of land for major road reservations or widenings**

For each property where land is required for road widening or a road reservation, the first component of its’ development contributions for roads shall be the land contribution from this property unless the Responsible Authority agrees to an alternative. Funding for land acquisition for road widening from contributions under this Development Contributions Plan Overlay is set at the value of \$750,000.00 per hectare, plus indexation. Affected landowners will be credited that value of land transferred to the Responsible Authority for road widening at the rate of \$750,000.00 per hectare, plus indexation, which is the rate that was used when determining the level of development contributions for the plan area.
