Use of land

A use must not detrimentally affect the amenity of the neighbourhood, including through the:

- Transport of materials, goods or commodities to or from the land.
- Appearance of any building, works or materials.
- Emission of noise, artificial light, vibration, smell, fumes, smoke, vapour, steam, soot, ash, dust, waste water, waste products, grit or oil.

An application to use land must be accompanied by the following information, as appropriate:

- The purpose of the use and the types of activities which will be carried out.

- The likely effects, if any, on nearby uses including noise levels, traffic, parking, the hours of delivery and dispatch of goods and materials, hours of operation and light spill, solar access and glare.
- Maintenance of areas associated with the use.

The Abbotsford Convent Master Plan

The Abbotsford Convent Master Plan 2004 (the “Master Plan”) is the relevant master plan for the operation of this Zone unless it is amended to the satisfaction of the responsible authority.

Amendments to the Master Plan must respond to the decision guidelines included in this Clause.

Decision guidelines

Before deciding on an application for a planning permit or amendment to the Master Plan, the responsible authority must consider as appropriate:

- The implementation of the approved Abbotsford Convent Master Plan;
- The views of Yarra City Council;
- The maximisation of public access to the area;
- The integration of the precinct with the Abbotsford community;
- The compatibility of the combination of uses and the character of development with the amenity of the adjoining uses and the visible skyline as seen from Studley Park Road, Johnston Street and Yarra Boulevard;
- The preservation of the cultural heritage of the site and its capacity to interpret the educational, community, and convent life of St Heliers;
- Allowing an evolving physical and cultural development of the site which continues to reflect changes in the economy and social fabric of inner Melbourne;
- Maintaining ecologically sustainable practices in the development and operation of the precinct;

- Building on the opportunities offered by the precinct's relationship with the Yarra River;
- Public safety and security as an integral consideration in the design and use of public spaces;
- The appropriateness of siting and appearance of buildings and works, the placement of fill and use of screening vegetation in ensuring that the scenic qualities and visual character of the waterway corridor are not compromised;
- The ability to maintain the free passage and temporary storage of floodwaters and minimise flood damage;
- The compatibility of the development with flood hazard and local drainage conditions to ensure that development will not cause any significant rise in flood level or flow velocity;
- Any local floodplain development plan;
- The existing use and development of the land;
- The susceptibility of the development to flooding and flood damage;
- The compatibility of the development with identified environmental values;
- The location and layout of all carparking areas and associated means of circulation and access;
- The environmental objectives for the Yarra River Environs identified in Schedule 1 to the Environmental Significance Overlay;
- The design objectives for the Yarra River Corridor identified in Schedule 1 to the Design and Development Overlay;
