Hume Planning Scheme
Local Provision
Index to Maps

Map User Guide

1. To ascertain the effect of all relevant planning controls, it is essential to refer to every planning scheme map that applies to that particular piece of land.

2. Locate the relevant map number from this index to maps.

3. Additional planning overlays are shown on separate map sheets, with the appropriate heading and suffix added to the number (e.g. HERITAGE OVERLAY MAP No. _HO). On these maps, the planning controls are identified by a black outline with a colour infill containing the alphanumeric code (e.g. H01). Note: Remember that these overlays are additional to the zoning information.

A complete list of zones & overlays is also in the written part of this scheme.
