Use of land

Application requirements

An application to use the land must be accompanied by the following information:

- The purpose of the use and the types of activities to be carried out.
- The likely effects, if any, on the neighbourhood, including noise levels, traffic, air-borne emissions, emissions to land and water, light spill, glare, solar access and hours of operation (including the hours of delivery and dispatch of materials and goods).

Decision guidelines

Before deciding on an application to use land, the responsible authority must consider, as appropriate:

- The protection and enhancement of the character of the locality and surrounding area.
- The availability and provision of utility services, including sewerage, water, drainage, electricity, gas and telecommunications.
- In the absence of reticulated sewerage, the capability of the lot to treat and retain all wastewater in accordance with the State Environment Protection Policy (Waters of Victoria) under the *Environment Protection Act 1970*.
- The design of buildings, including provision for solar access.
- The provision of car parking and loading bay facilities and landscaping.

- The effect that existing uses on adjoining or nearby land may have on the proposed use.
- The availability and provision of utility services.
- The effect of traffic to be generated by the use.
- The interim use of those parts of the land not required for the proposed use.

Subdivision

Permit requirement

Each lot must be provided with reticulated sewerage, if available.

Application Requirement

If reticulated sewerage is not available, the application must be accompanied by:

- A land assessment which demonstrates that each lot is capable of treating and retaining all wastewater in accordance with the State Environment Protection Policy (Waters of Victoria) under the Environment Protection Act.
- A plan which shows a building envelope and effluent disposal area for each lot.

Decision guidelines

Before deciding on an application to subdivide land, the responsible authority must consider, as appropriate:

- The protection and enhancement of the character of the locality and surrounding area.
- The availability and provision of utility services, including sewerage, water, drainage, electricity, gas and telecommunications.
- In the absence of reticulated sewerage, the capability of the lot to treat and retain all wastewater in accordance with the State Environment Protection Policy (Waters of Victoria) under the Environment Protection Act.
- The design of buildings, including provision for solar access.
- The provision of car parking and loading bay facilities and landscaping.
- The effect that existing uses on adjoining or nearby land may have on the proposed use.
- The availability and provision of utility services.
- The effect of traffic to be generated by the use.
- The interim use of those parts of the land not required for the proposed use.

Buildings and works

Decision guidelines

Before deciding on an application to construct a building or construct or carry out works, the responsible authority must consider, as appropriate:

- The protection and enhancement of the character of the locality and surrounding area.
- The availability and provision of utility services, including sewerage, water, drainage, electricity, gas and telecommunications.
- In the absence of reticulated sewerage, the capability of the lot to treat and retain all wastewater in accordance with the State Environment Protection Policy (Waters of Victoria) under the Environment Protection Act.
- The design of buildings, including provision for solar access.

ARARAT PLANNING SCHEME

- The provision of car parking and loading bay facilities and landscaping.
- The effect that existing uses on adjoining or nearby land may have on the proposed use.
- The availability and provision of utility services.
- The effect of traffic to be generated by the use.
- The interim use of those parts of the land not required for the proposed use.
