## **Buildings and works**

### **Application requirements**

An application to construct a building or construct or carry out works must be accompanied by a plan, drawn to scale, which shows:

- The boundaries and dimensions of the site.
- Relevant ground levels.
- Adjoining roads.
- The location, height and purpose of buildings and works on adjoining land.
- The layout and use of existing and proposed buildings and works, including driveways and car parking and loading areas.
- Elevation drawings indicating the colour and materials of all proposed buildings and works.
- Construction details of all drainage works, driveways and car parking and loading areas.
- Details of existing and proposed landscaping.

### **Decision guidelines**

Before deciding on an application to construct a building or construct or carry out works, the responsible authority must consider, as appropriate:

- The interface with adjoining land, especially the relationship with residential areas.
- The location and type of access to the site.
- The provision for car parking.
- The appearance and bulk of buildings having regard to the adjoining land, especially the relationship with residential areas.
- The provision of land for landscaping and beautification.
- The movement of pedestrians and cyclists and vehicles providing for supplies, waste removal, emergency services and public transport.
- Loading and service areas.
- The effect of the proposed buildings and works on the amenity of the neighbourhood, including the effects of noise, lighting, overshadowing and privacy.
