C182(Part 1)

Neighbourhood character objectives

To ensure the scale, built form and setbacks of residential development responds to the existing site circumstances by respecting the valued characteristics of the neighbourhood including the predominant built form, façade street patterns and appropriate separation between dwellings.

To provide appropriate front, side and rear setbacks, garden areas and private open space to allow for substantial high quality landscaping, including canopy trees to protect the amenity and outlook of adjoining properties and contribute to the landscape character.

To maximise the opportunities to create high quality landscaping through minimal paving and the use of permeable ground surfaces.

To ensure vehicle accessways and storage facilities do not visually dominate the streetscape.

To ensure that residential development achieves high quality useable private open space outcomes for future residents, including the provision of ground level secluded private open space at the side or rear of each dwelling.
