SCHEDULE 13 TO CLAUSE 35.06 RURAL CONSERVATION ZONE

Shown on the planning scheme map as **RCZ13**.

CONSERVATION VALUES

Granite rock forms/Scoria Cones, Anakie.

The scoria cones/granitic outcrops on Granite Road, to the north east of Anakie are isolated and prominent landscape features of volcanic origin rising above the surrounding countryside. They are significant for their similar ecological characteristics to the You Yangs. The zone has been applied to ensure that the land form is not altered by agricultural activities and that the natural rock formations continue to be a significant landscape feature.
