C396ggee**Statement of nature and key elements of landscape**

This area is comprised of treeless foothills and plains at the base of the You Yangs. The You Yangs are the most prominent landscape feature in the northern area of the municipality, providing panoramic views of Geelong. The surrounding foothills and plains create an open view path to the You Yangs, visually exposing them when viewed from the surrounding basalt plains.

The key element of the landscape is its open character and contrast with the You Yangs.

The following decision guidelines apply to an application for a permit under Clause 42.03, in addition to those specified in Clause 42.03 and elsewhere in the scheme which must be considered, as appropriate, by the responsible authority:

- The landscape values of the edges of the foothills of the You Yangs.
- The protection and appropriate enhancement of the landscape, having regard to:
  - Protecting landscape areas and vantage points of high quality.
  - The conservation of significant areas of natural vegetation and significant stands of trees.
  - The necessity of retaining a buffer strip of vegetation in the vicinity of watercourses, roads and property boundaries, in particular any remnant indigenous vegetation species.

## GREATER GEELONG PLANNING SCHEME

- Whether the siting, height, scale, materials and form of proposed buildings and works has been designed to have least visual effect on the landscape and scenic views of the foothills of the You Yangs.
- Whether approval of the proposed buildings and works is compatible with maintaining the visual and natural significance of the landscape.
- The benefit of permit conditions requiring all building materials to be non-reflective and of colours which are complementary to those of the natural landscape.
- The benefit of conditions requiring the landscaping of buildings and works, while also having regard to the maintenance of existing viewlines.
- Whether an alternative site is available on the land for the proposed buildings and works that would better meet the landscape objectives of this schedule.
- The containment of extractive industries to ensure that development and subsequent reclamation are carried out without significant detriment to the recreational and scenic value of the surrounding area.
