SCHEDULE 14 TO CLAUSE 43.02 DESIGN AND DEVELOPMENT OVERLAY

Shown on the planning scheme map as **DDO14**.

DWELLINGS OVER 7.5 METRES IN AREAS WITH ACCESS TO VIEWS

1.0

07/12/2020
C396ggee

Design objectives

To ensure that the siting, height and visual bulk of dwellings achieves a reasonable sharing of views between properties to significant landscape features such as the coast (ocean and foreshore), Corio Bay, Barwon River, Central Geelong, Barrabool Hills and the You Yangs.

Buildings and works

A permit is not required for buildings and works other than to construct a dwelling which is more than 7.5 metres above natural ground level (excluding any television antenna, chimney or flue) or extend a dwelling where the extension is more than 7.5 metres above natural ground level (excluding any television antenna, chimney or flue).

3.0

C396ggee

Subdivision

A permit is not required to subdivide land.

4.0

07/12/2020
C396ggee

Signs

None specified.

5.0

07/12/2020
C396ggee

Application requirements

A view impact analysis should be submitted when there is likely to be an impact on views to significant landscape features by the proposed development. Any view impact analysis should demonstrate how the design objectives to achieve a reasonable sharing of views has been met having regard to topography, siting, height and visual bulk and the extent of available views.

Decision guidelines

The following decision guidelines apply to an application for a permit under Clause 43.02, in addition to those specified in Clause 43.02 and elsewhere in the scheme which must be considered, as appropriate, by the responsible authority:

- The design objectives of this schedule.
- The impact of the proposed buildings and works on the view from another property as result of the design, siting, height, size and bulk (including the roof).
- Whether opportunities exist to avoid a building being visually obtrusive by the use of alternative building designs, including split level and staggered building forms, that follow the natural slope of the land and reduce the need for site excavation or filling.
- The opportunity for a reasonable sharing of views having regard to the extent of the available view(s) and the significance of the view(s) from the properties affected.
