Maximum building height requirement for a dwelling or residential building

A building used as a dwelling or residential building must not exceed a height of 9 metres unless the slope of the natural ground level at any cross section wider than 8 metres of the site of the building is 2.5 degrees or more, in which case it must not exceed a height of 10 metres.

This does not apply to:

- An extension of an existing building that exceeds the specified building height provided that the extension does not exceed the existing building height.
- An extension of an existing building or the construction of a new building that exceeds the specified building height which does not exceed the height of immediately adjacent buildings facing the same street.
- The rebuilding of a lawful building or works which have been damaged or destroyed.
- A building which exceeds the specified building height for which a valid building permit was in effect prior to the introduction of this provision.
