Decision guidelines

The following decision guidelines apply to an application for a permit under Clause 32.08, in addition to those specified in Clause 32.08 and elsewhere in the scheme which must be considered, as appropriate, by the responsible authority:

- Whether the design of new developments exceeding nine metres above natural surface level provides a stepped or graduated elevation treatment to adjoining Neighbourhood Residential Zone.
- Whether new buildings are set back from an adjoining heritage building.
- Whether vehicle access points are safe and accessible and promote a walkable neighbourhood by ensuring space for car parking is provided in front of garages and carports within the property boundary.
- Whether the building façade provides articulation and appearance of space between dwellings.
- Whether space is provided within the front setback for landscaping.
- Whether the new development reinforces a wide streetscape and garden character.
