Management objective

In order to ensure the medium to long term extraction and use of the coal resource for power generation, building, works and subdivision of land over the resource should be of a type that will not inhibit, by way of community significance or cost of removal, the eventual productive use of that resource.

Decision guidelines

Before deciding on an application of a kind specified in 3.0 of this schedule, the responsible authority must consider, as appropriate:

- The need to ensure development of the land does not inhibit the eventual development and use of the coal.
- The need to exclude urban development, including low density residential development, and rural living development, from this overlay area.
- The impact of the building and works on nearby existing or proposed brown coal mining or electricity generation and any nearby agricultural uses.
