Neighbourhood character objectives

To facilitate development that achieves a spacious open feel.

To encourage a variety of lot sizes with larger lots towards the interface with the low density residential area to the east and smaller lots closer to areas of public open space.

To encourage detached dwellings that avoid boundary-to-boundary development and minimise the visual dominance of garages.

To support increased canopy cover through plantings on private property as well as street trees.

To retain open front gardens that merge into the nature strip.
