Objective

To facilitate non-residential uses in residential areas only where they are compatible with the residential character and amenity and serve the needs of the local community

To ensure that the design, scale and appearance of non-residential premises reflects the residential character and streetscape of the area.

To retain existing housing stock in residential zones.

To ensure that development is designed and constructed taking into account environmentally sustainable design practices.

To ensure that the intensity and operation of the use does not adversely affect residential amenity.

To ensure that the location of the use is appropriate to the role and function of the road network and that adequate provision is made for on-site car parking.
