Open space

Strategy

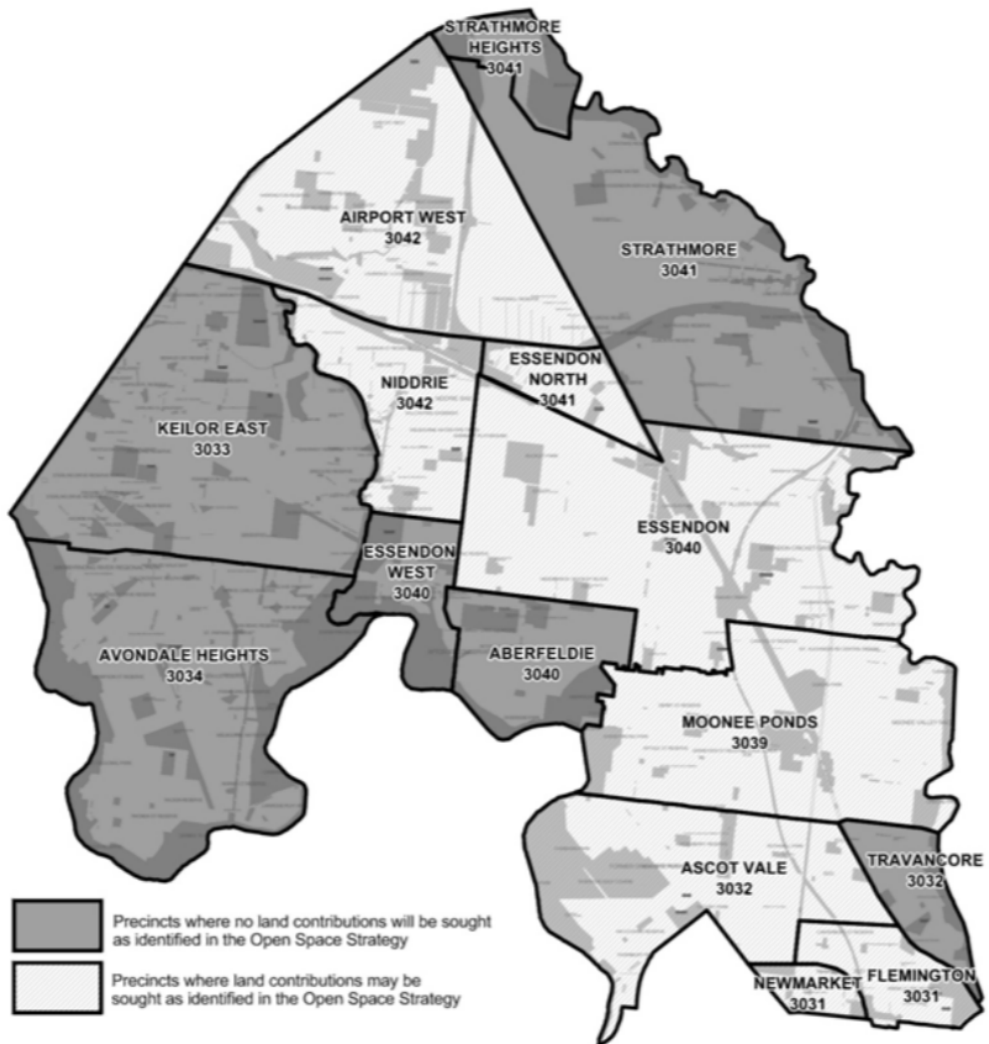

Provide a diversity of open spaces that incorporate day and night activity.

Objective

To identify where land contributions for public open space are preferred over financial contributions.

Strategy

Request land contributions for public open space over cash contributions in parts of Airport West, Niddrie, Essendon North, Essendon, Moonee Ponds, Ascot Vale, Newmarket and Flemington to address gaps in the open space network.

Give preference to financial contributions for all other open space contributions.

Policy documents

Consider as relevant:

MOONEE VALLEY PLANNING SCHEME
