CRESWELL STREET EAST, CRIB POINT

1.0

Neighbourhood character objectives

To promote the preferred future character of the township as a low density country town on the coast with a low profile built form where housing is set within the landscape and canopy trees are retained and re-established.

To ensure the design of subdivision and housing is responsive to the environment, landform, site conditions and character of Crib Point's residential areas.

To ensure that the height, scale and siting of new development has proper regard for the established streetscape and development pattern.

To encourage building materials, forms, textures and colours that are compatible with the landscape setting.
