VISION

- Council seeks to enhance the liveability, amenity and quality of life in the municipality.
- Council will facilitate sustainable population and economic growth.
- The municipal rate base will be actively grown through sound planning, support for continued economic development and protection of the natural and built environment.
- A strong economy will attract people to the municipality, creating further opportunities for lifestyle choice, business investment and prosperity.
- Increased economic growth and investment will enhance population growth, employment and social and cultural benefits for the municipality.
- Residential growth will be provided in established townships and settlements with existing communities and infrastructure, where natural environment is protected and a high level of community safety is achieved.
