Neighbourhood character objectives

To ensure new development protects the visual prominence of the St Kilda Presbyterian Church by creating a transition in the height of development from lower rise adjoining the Church to higher rise at the corner of Alma Road and St Kilda Road along Alma Road, east of the Church.

To ensure new development along Alma Road provides consistent landscaped front setbacks and regular spacing between buildings.

To ensure new development establishes a coherent edge to the western side of St Kilda Road through a continuous street wall and consistent building heights.

To encourage development that enhances the prominent corner of Carlisle Street and St Kilda Road.

Decision guidelines

The following decision guidelines apply to an application for a permit under Clause 32.08, in addition to those specified in Clause 32.08 and elsewhere in the scheme which must be considered, as appropriate, by the responsible authority:

- Whether the proposal respects the existing neighbourhood character, including height and form.
- The visual impact and bulk of the proposal and its relationship with adjacent buildings.
- Whether the roof form responds to the streetscape character.
- Whether architectural features contribute positively to the architecture of the building and neighbourhood character.
