**Use of land**

The use of land must not adversely affect the amenity of the neighbourhood by:

- Traffic and car parking generated by the use.
- The transport of materials or goods to or from the land.
- The appearance of any building, works or materials.
- Noise generated by the use.

**Decision guidelines**

The following decision guidelines apply to an application for a permit under Clause 37.01, in addition to those specified in Clause 37.01 and elsewhere in the scheme which must be considered, as appropriate, by the responsible authority:

- The extent to which the use will contribute to the benefit of, and promote the golf course as a viable recreation and entertainment venue.
- The effect of the use on the amenity of the neighbourhood.

**Subdivision****Application requirements**

The following application requirements apply to an application for a permit under Clause 37.01, in addition to those specified in Clause 37.01 and elsewhere in the scheme and must accompany an application, as appropriate, to the satisfaction of the responsible authority:

- A current copy of the Certificate of Title to the land.
- A report stating how the proposed subdivision will contribute to the benefit of, and promote the golf course as a viable recreation and entertainment venue.

- A report stating how the proposed subdivision responds to the decision guidelines detailed in this schedule.
- Unless each lot is to be provided with reticulated sewerage, a land assessment report by a qualified geotechnical expert demonstrating that each lot is capable of treating and retaining all wastewater in accordance with the State Environment Protection Policy (Waters of Victoria) under the Environment Protection Act 1970.
- A plan drawn to scale which shows:
  - The boundaries and dimensions of the existing site.
  - The location of any existing or proposed buildings on site.
  - The location of existing or proposed access to the site.
  - The location of any existing buildings on adjoining land.
  - The boundaries and dimensions of the proposed subdivision.
  - Adjoining roads.

### Decision guidelines

The following decision guidelines apply to an application for a permit under Clause 37.01, in addition to those specified in Clause 37.01 and elsewhere in the scheme which must be considered, as appropriate, by the responsible authority:

- The extent to which the subdivision will contribute to the benefit of, and promote the golf course as a viable recreation and entertainment venue.
- Any natural or cultural values on or near the site.
- The availability and provision of utility services to the site.

### Buildings and works

#### Application requirements

The following application requirements apply to an application for a permit under Clause 37.01, in addition to those specified in Clause 37.01 and elsewhere in the scheme and must accompany an application, as appropriate, to the satisfaction of the responsible authority:

- A current copy of the Certificate of Title to the land.
- A neighbourhood and site description and design response, which is to include an assessment of existing vegetation and design response that minimises the impact on any significant vegetation.
- A plan drawn to scale which shows:
  - The site shape, size, orientation and easements.
  - Levels of the site and the difference in levels between the site and surrounding properties.
  - The location, height and purpose of any existing or proposed buildings and works on site.
  - The colour and materials of all proposed buildings.
  - The location of existing and proposed access to the site, vehicle parking and loading areas.
  - The location, height and purpose of any existing buildings on adjoining land where required to assess the impact of the height and bulk of the new development on the neighbourhood character.
  - Adjoining roads.
  - All external storage and waste treatment areas.

- A photomontage or scale model of the proposed development, if requested by the responsible authority, to illustrate how it will sit in the landscape and how it will appear from relevant vantage points in the neighbourhood.
- A landscape plan that shows:
  - The location of existing vegetation that is to be retained and removed.
  - The location of any vegetation to be planted and surfaces to be constructed.
  - A detailed planting schedule that responds to the local environment and places emphasis on indigenous species.
  - Replacement of environmental weeds listed in *Weeds of the Surf Coast Shire (2013)*.
  - A detailed site management plan that provides measures to protect retained vegetation from damage during site works.
  - Recommended means of retaining mature trees as a preference to removal.
- Where a site has a slope exceeding 25%, a geotechnical report that addresses where relevant:
  - Potential for erosion, susceptibility to landslip or other land degradation.
  - The need to stabilise disturbed areas by engineering works or revegetation.

Unless the application is for minor alterations to existing buildings or works.

### Decision guidelines

The following decision guidelines apply to an application for a permit under Clause 37.01, in addition to those specified in Clause 37.01 and elsewhere in the scheme which must be considered, as appropriate, by the responsible authority:

- The purpose of the schedule to the zone.
- Whether the proposed development will enhance the role of the golf course as an attractive recreation and entertainment venue.
- Any natural or cultural values on or near the site.
- The availability and provision of utility services to the site.
- The impact of the proposed development on native vegetation both on the site and on adjoining properties.
- Whether the height, bulk and design of buildings is in keeping with the low rise, low scale neighbourhood character.
- Whether the height, bulk and design of buildings sit naturally within the landscape, avoid breaking any visual ridgelines and generally appear subservient to the surrounding natural landscape setting.
- The adequacy of proposed landscaping to soften any buildings and works and create a landscape setting compatible with the natural surrounding environment.
- The treatment and disposal of all wastewater and drainage water, in particular the way in which wastewater will be collected, treated and re-used on site or discharged to a reticulated system.
- The impact that the proposed development will have on traffic in the vicinity of the site.
- The storage of rubbish and material for recycling.
