

**Building design****Objective**

To achieve building design outcomes that contribute positively to the local context and enhance the public realm.

**Strategies**

Require a comprehensive site analysis as the starting point of the design process.

Ensure the site analysis provides the basis for the consideration of height, scale and massing of new development.

Ensure development responds and contributes to the strategic and cultural context of its location.

Minimise the detrimental impact of development on neighbouring properties, the public realm and the natural environment.

Ensure the form, scale, and appearance of development enhances the function and amenity of the public realm.

Ensure buildings and their interface with the public realm support personal safety, perceptions of safety and property security.

Ensure development is designed to protect and enhance valued landmarks, views and vistas.

Ensure development provides safe access and egress for pedestrians, cyclists and vehicles.

Ensure development provides landscaping that responds to its site context, enhances the built form and creates safe and attractive spaces.

Encourage development to retain existing vegetation.
