**Energy and resource efficiency****Objective**

To encourage land use and development that is energy and resource efficient, supports a cooler environment and minimises greenhouse gas emissions.

**Strategies**

Improve the energy, water and waste performance of buildings and subdivisions through environmentally sustainable development.

Promote consolidation of urban development and integration of land use and transport.

Improve efficiency in energy use through greater use of renewable energy technologies and other energy efficiency upgrades.

Support low energy forms of transport such as walking and cycling.

Reduce the urban heat island effect by greening urban areas, buildings, transport corridors and open spaces with vegetation.

Encourage retention of existing vegetation and planting of new vegetation as part of development and subdivision proposals.
