Buildings and works

A permit is required to construct or carry out any of the following:

- A building or works associated with a use in Section 2 of Clause 35.04-1. This does not apply to:
 - An alteration or extension to an existing dwelling with a floor area of no more than the area specified in a schedule to this zone or, if no area is specified, 50 square metres.

- An alteration or extension to an existing building used for agriculture with a floor area of no more than the area specified in a schedule to this zone or, if no area is specified, 100 square metres. The building must not be used to keep, board, breed or train animals.
- A rainwater tank.
- Earthworks specified in a schedule to this zone, if on land specified in a schedule.
- A building which is within any of the following setbacks:
 - 100 metres from a Road Zone Category 1 or land in a Public Acquisition Overlay to be acquired for a road, Category 1.
 - 40 metres from a Road Zone Category 2 or land in a Public Acquisition Overlay to be acquired for a road, Category 2.
 - 20 metres from any other road.
 - 5 metres from any other boundary.
 - 100 metres from a dwelling not in the same ownership.
 - 100 metres from a waterway, wetlands or designated flood plain.

35.04-6 Decision guidelines

05/09/2013
VC103

Before deciding on an application to use or subdivide land, lease or license a portion of a lot for a period of more than 10 years if the portion is to be leased or licensed for the purpose of Accommodation, construct a building or construct or carry out works, in addition to the decision guidelines in Clause 65, the responsible authority must consider, as appropriate:

General issues

- The State Planning Policy Framework and the Local Planning Policy Framework, including the Municipal Strategic Statement and local planning policies.
- Any Regional Catchment Strategy and associated plan applying to the land.
- The capability of the land to accommodate the proposed use or development.
- How the use or development relates to rural land use, rural diversification, natural resource management, natural or cultural heritage management, recreation or tourism.
- Whether the site is suitable for the use or development and the compatibility of the proposal with adjoining land uses.
- Whether the use or development is essential to the health, safety or well-being of the State or area but is not appropriate to locate in an urban area because of the effect it may have on existing or proposed urban areas or the effect that existing or proposed urban areas may have on the proposed use or development.
- The need to minimise adverse impacts on the character and appearance of the area or features of architectural, scientific or cultural heritage significance, or of natural scenic beauty.

Rural issues

- The maintenance of agricultural production and the impact on the rural economy.
- The environmental capacity of the site to sustain the rural enterprise.
- The need to prepare an integrated land management plan.
- The impact on the existing and proposed rural infrastructure.

- The potential for the future expansion of the use or development and the impact of this on adjoining and nearby agriculture and other land uses.
- The protection and retention of land for future sustainable agricultural activities.

Environmental issues

- The impact of the use or development on the flora and fauna on the site and its surrounds.
- The need to protect and enhance the biodiversity of the area, including the retention of vegetation and faunal habitat and the need to revegetate land including riparian buffers along waterways, gullies, ridgelines, property boundaries and saline discharge and recharge area.
- How the use or development relates to sustainable land management and the need to prepare an integrated land management plan.
- The location of on site effluent disposal areas to minimise impact of nutrient loads on waterways and native vegetation.

Design and siting issues

- The need to minimise any adverse impacts of siting, design, height, bulk, and colours and materials to be used, on landscape features, major roads and vistas.
- The location and design of existing and proposed infrastructure services which minimises the visual impact on the landscape.
- The need to minimise adverse impacts on the character and appearance of the area or features of archaeological, historic or scientific significance or of natural scenic beauty or importance.

Primary school or secondary school issues

- Access being provided via an all-weather road with dimensions adequate to accommodate emergency vehicles and not rely on local residential streets for access.
- Access by public transport, or if public transport is not available or adequate, transport may be provided by the school. Where transport is provided by the school the parking of buses should be accommodated on site.
- Connection to a reticulated sewerage system or if not available, the waste water must be treated and retained on-site in accordance with the State Environment Protection Policy (Waters of Victoria) under the Environment Protection Act 1970.
- Connection to a reticulated potable water supply or an alternative potable water supply with adequate storage for school use as well as for fire fighting purposes.
- Connection to a reticulated electricity supply or an alternative energy source.

35.04-7 Advertising signs

31/10/2006
VC43

Advertising sign requirements are at Clause 52.05. This zone is in Category 3.

Notes: Refer to the State Planning Policy Framework and the Local Planning Policy Framework including the Municipal Strategic Statement, for strategies and policies which may affect the use and development of land.

Check whether an overlay also applies to the land.

Other requirements may also apply. These can be found at Particular Provisions.
