Requirements for a master plan

A master plan must be prepared which is generally consistent with the *Epping North Local Structure Plan*, *Lyndarum Development Plan* and the *Lyndarum Neighbourhood Activity Centre Comprehensive Development Plan*. The master plan must consist of a detailed site analysis, a design concept plan and a written report.

The master plan must show, or address, the following matters to the satisfaction of the responsible authority:

General:

- General consistency with the *Epping North Local Structure Plan* or the *Lyndarum Development Plan*.
- The location of all land uses which are proposed with the master plan area.
- The general pattern of subdivision and location of building envelopes.
- The stages, if any, by which the development of the land is proposed to proceed.

Use:

- Retail floor space consistent with the role of a neighbourhood activity centre.
- A diversity and distribution of uses that encourage cross centre movement.
- Mechanisms to ensure appropriate pedestrian and vehicle activity within the main street (Lyndarum Drive).
- Mechanisms to ensure that uses and/or development not fronting the main street do not detract from the viability of the main street.

Built Form:

- A defined urban character which is clearly articulated in the built form and building setbacks.
- Buildings located to address the street, with parking located at the side or rear where possible.
- Public open space providing a strong relationship with the surrounding built form.
- A diversity of traditional streetscape conditions with variation in car parking arrangements, verge widths and streetscape planting.
- Provision of appropriate transition and interface design treatments between designated land uses (or mixed land uses).
- Establishment of architectural statements and landmarks in key locations.

WHITTLESEA PLANNING SCHEME

- Appropriate interaction and relationship between residential and non-residential uses.
- Solar access and shade provision.

Accessibility:

- The relationship between buildings and other pedestrian spaces.
- The legibility of key areas within the Neighbourhood Activity Centre
- The connection between the Neighbourhood Activity Centre and surrounding land uses.
- Pedestrian and cyclist amenity.
- Adequate car parking
- Service vehicle access.

Public Realm:

- The public realm within the Neighbourhood Activity Centres streets, public park and pedestrian spaces.
- Landscape architecture and urban design concept plans for all proposed public open space areas including pedestrian walkways.
