WYNDHAM PLANNING SCHEME

Facility	Levies Payable by the Development					
	Development Infrastructure		Community Infrastructure		All Infrastructure	
	residential	non-residential	residential	non-residential	residential	non-residential
		\$937.06 per lot/dwelling (if any)			plus \$1,150.00 (CIL) per lot/dwelling	plus \$1,150.00 (CIL) per lot/dwelling

** 1. Where the expression “lot/dwelling” is used, the intent is that the stated contributions are to be made on a per dwelling basis. However, where contributions are to be made on subdivisions, the number of lots may be used as a proxy for number of dwellings; except that where multi-dwelling or multi-use sites are included, their contributions will be based on planned dwelling numbers.*

2. Totals do not include 5% open space contributions, where relevant.

The Community Infrastructure Levy (CIL) payable under this Development Contributions Plan (DCP)

Section 46L of the *Planning and Environment Act 1987* sets the maximum CIL amount that can be collected under an approved DCP

If the maximum amount of the CIL which may be collected under an approved DCP is varied under section 46L of the *Planning and Environment Act 1987*, the collecting agency may adjust the amount of the CIL payable under this DCP in accordance with section 46L of the *Planning and Environment Act 1987*.

If the collecting agency adjusts the amount of the CIL payment under this DCP, the collecting agency will publish the adjusted amount of the CIL payable under this DCP on its website.

Provision of land for major road reservations or widenings

For each property where land is required for road widening or a road reservation, the first component of its development contributions for roads shall be the land contribution from this property unless the Responsible Authority agrees to an alternative. This plan includes provision to fund land acquisition for road widening from contributions under this Development Contributions Plan Overlay at the value of \$167,033 per hectare, plus indexation as in Section 5.0. Affected landowners will be credited that value of land transferred to Responsible Authority for road widening at the rate of \$167,033 per hectare, plus indexation as in Section 5.0, which is the rate that was used when determining the level of development contributions for the plan area.

Definitions

Net developable area for the purposes of this schedule is defined as “the total site area, minus arterial and sub-arterial road widenings and reserves, floodways in dedicated reservations, school sites and the open space required by Council. Estate entry features, plantation and garden reserves and similar features are not omitted.

Gross developable area for the purposes of this schedule is defined as “the total site area, minus arterial and sub-arterial road widenings and reserves, floodways in dedicated reservations and school sites. Estate entry features, plantation and garden reserves and similar features are not omitted. Gross Developable Area is only used in the calculation of public open space requirements.

Note: This schedule sets out a summary of the costs and contributions prescribed in the development contributions plan. Refer to the incorporated development contributions plan for full details
